Rigidlock Suspended Ceiling Grid Service Life Requirements

Cleaning:

- ❖ Use a mild liquid cleaner diluted in warm water & apply with a clean soft cloth or sponge
- ❖ Remove all infill panels while cleaning is in progress, paying close attention to other services in contact with or near the area being cleaned.
- ❖ Do not use abrasive cleaners – this will damage the face of the grid

Painting:

- ❖ Do not paint the section – this will affect the fire performance of the grid

Maintenance Requirements based on working life:

- ❖ Annual cleaning cycles should be done as a minimum requirement although industrial areas will require more frequent cleaning
- ❖ Evaluate frequency of cleaning required taking into consideration the following:

Levels of occupancy

Nature of activities

Efficiency of air conditioning units
